🌿 How to Upgrade the Tryton server (trytond)

From within the jail issue:

```
cp -R /usr/local/lib/python2.7/site-packages/trytond /usr/local/lib/python2.7/site-packages/trytond.ol
pip uninstall --yes trytond
pip uninstall --yes trytond_account
pip uninstall --yes trytond_account_be
pip uninstall --yes trytond_account_de_skr03
pip uninstall --yes trytond_account_de_skr03_2008
pip uninstall --yes trytond_account_nl
pip uninstall --yes trytond_account_invoice
pip uninstall --yes trytond_account_invoice_history
pip uninstall --yes trytond_account_invoice_line_standalone
pip uninstall --yes trytond_account_product
pip uninstall --yes trytond_account_statement
pip uninstall --yes trytond_account_stock_anglo_saxon
pip uninstall --yes trytond_account_stock_continental
pip uninstall --yes trytond_account_stock_ucoa
pip uninstall --yes trytond_analytic_account
pip uninstall --yes trytond_analytic_invoice
pip uninstall --yes trytond_analytic_purchase
pip uninstall --yes trytond_analytic_sale
pip uninstall --yes trytond_calendar
pip uninstall --yes trytond_calendar_classification
pip uninstall --yes trytond_calendar_scheduling
pip uninstall --yes trytond_calendar_todo
pip uninstall --yes trytond_carrier
pip uninstall --yes trytond_carrier_percentage
pip uninstall --yes trytond_carrier_weight
pip uninstall --yes trytond_company
pip uninstall --yes trytond_company_work_time
pip uninstall --yes trytond_contract
pip uninstall --yes trytond_country
pip uninstall --yes trytond_currency
pip uninstall --yes trytond_dashboard
pip uninstall --yes trytond_google_maps
pip uninstall --yes trytond_health
pip uninstall --yes trytond_health_calendar
pip uninstall --yes trytond_health_genetics
pip uninstall --yes trytond_health_gyneco
pip uninstall --yes trytond_health_icd10
pip uninstall --yes trytond_health_icd10pcs
pip uninstall --yes trytond_health_inpatient
pip uninstall --yes trytond_health_inpatient_calendar
pip uninstall --yes trytond_health_invoice
pip uninstall --yes trytond_health_lab
pip uninstall --yes trytond_health_lifestyle
pip uninstall --yes trytond_health_pediatrics
pip uninstall --yes trytond_health_profile
pip uninstall --yes trytond_health_socioeconomics
pip uninstall --yes trytond_health_surgery
pip uninstall --yes trytond_ldap_authentication
pip uninstall --yes trytond_ldap_connection
pip uninstall --yes trytond_party
pip uninstall --yes trytond_party_siret

pip install --no-dependencies --build-dir=/usr/local/src trytond_stock_supply_forecast
pip install --no-dependencies --build-dir=/usr/local/src trytond_timesheet
#pip install --no-dependencies --build-dir=/usr/local/src trytond_timesheet_invoice
```

Update your database by issuing the following as root from within the jail:

```
su tryton -c "/usr/local/bin/trytond --config=/usr/local/etc/trytond.conf  --update=all --database=[da
```

Once you are sure that everything works as desired, issue from within the host:

```
rm -rf /usr/local/lib/python2.7/site-packages/trytond.old
```
