on Sunday, September 16th, 2k12 at 6:42pm via [openInvent](#)

Sep 20, 2012

## Future Goals:

\* [openInvent](#) wants to make a deck of cards out of 54 invention ideas – sponsors welcomed – their logos will be used as the background image to the deck of cards. Contact us on [facebook](#).

## Mathematics:

\* More operation: ex.  $4|3 = 444$ ,  $16|2 = 176$ ,  $2|4 = 2222$  More in Base 2:  $11|3 = 10101$ ,  $10|2 = 111$  useful in computing for irrationals which extend to the larger end of the radix;  $3|∞ = -333333...$   
\* coined "Fountain Carry" in fractional digit representation, which is a carry to 2 or more adjacent digits. I think pi in base 10 is  $10/3$  with carried divisions in each digit (irrational carries).

## (re)Discoveries:

\* Siphon air downwards in an underwater environment (air goes down then up).  
\* Negative Placebo Effect: forced medication can cause a negative effect perhaps due to a release of stress related hormones or perhaps a negative placebo effect.  
\* Water should be removed from control testing of medical drugs. Perhaps water itself has curative effects on the body.

## Other Ideas/Inventions/Experiments:

- \* openInvent - <http://groupspaces.com/openInvent/> groupspaces site <http://www.facebook.com/pages/openInvent> on facebook
- \* Umbrella snap fish hook - based on inverted umbrella design when pulled the hook flares.
- \* Fat Absorbent Paper plates - joke idea/gimmick cabbage coffee filter plates.
- \* Phalliq Toilet Paper Spray - sanitizer cums in a glass dildo perfume bottle
- \* GlitterEar putty - gummy makeup for earlobes (Davidson submittal)
- \* Bracelet BendABottle - wrist-weight plastic coil bracelet bottle attach to arm for jogs.
- \* FaradyRim (see article on issuu.com or scribd.com or magleon.info)  
-relies on \* intertwined toroidal solenoid(2 donut-coils interwoven together)
- \* CookieJar/Password Dongle - hate passwords store them on an external thumb-drive/dongles
- \* Vertigo WaterSlide - Clear Plastic water slide with LEDs.
- \* Extruding SkyScrapers with 270 degree panoramic views on time share. Rooms project out of skyscraper.
- \* Neroh air fountain (untested) -inverses the principles of the Heron Fountain
- \* Lenticular Distortion Display (LDD) - Dynamic Lenticular Lens aligned in front of a standard display device (LED/LCD). Used to animate the inner 3D space within the displays (next gen-Digital Photo Frames, DS/PSP)
- \* Solar Panel Floor tiles modular solar energy recyclers needed for underwater/space exploration uses conductive grout graphite mixed to make the grout conductive.
- \* 3D Yagi Antenna - Suspend metal in liquid colloquial silver/mercury -arrange molecules to capture desired harmonic frequencies. Satellite dishes can be filled with this liquid - we need electromagnetic grid/lens to change 3D frequency channel - changes distance between molecules to match the harmonic of the desired frequency.
- \* Carbide (pre-baked) rolling papers

on Sunday, September 16th, 2k12 at 6:42pm via [openInvent](#)

- \* Rolling Paper Advertising - smoke-able ink/watermark lemon/cranberry juice -cheap/free papers costs covered by advertisers.
- \* Joules Gym - workout with dynamos make electricity get incentives like nutritional food, clothing, towels, or certificates - based on your work (electrical term)
- \* RakeBroom - one side rake one side broom
- \* Reverse Pendulum boat based on my understanding of Noah's Ark a floating compass on the sea with a counterweight anchor that doesn't touch floor but is used to prevent capsizing -idea emailed to the inventor of the hydrofoil.
- \* Blimp-ship for traveling icy seas the ship is lifted out of the water slightly and dropped to saw thru ice.
- \* Thrusting strap-on. 2 versions Leg- BubbleBall or alternating electromagnetic ring cup and dildo with spherical magnets.
- \* Stripper Polestruments - sound controller using theremin technology
- \* Scented/ Medicine clothes washed/infused with herbal teas absorbed through skin.
- \* Teacher Clothes - Educational prints on clothing for teachers to wear.
- \* Chicini ("Sheek"-E-ni) half thong half bikini reveals one butt cheek.
- \* Ziptop panty - zipClick 2 zippers zip to center and fasten together as a button.
- \* pH balanced tooth-paste – prevents the "battery" effect which I think causes plague buildup
- \* Calcium tooth electroplating therapy - use electrical current to create a "battery effect" using a calcium rich electrolyte to coat teeth with protective material.
- \* PerfectSmile mouthpiece - a mouth trainer for the facercise program (the facercise program also uses large rubber face bands which reverse gravities effect during the day lifts face french idea?)
- \* Dustpan bag clip - dustpan with bag to pick up dirt -it's a dumb idea cause you need to swap bags it might only be useful in large applications like a bulldozer for leaves and twigs.
- \* Freeze engine - instead of combustion use liquid nitrogen to freeze compress pistons. Used in Lateral Piston engines the piston is a magnet that floats/sits on a superconductive ceramic engine housing. Alternates between Combustion and freeze compression to move piston laterally. Note: piston heads must have tolerances to accommodate for the expansion/contraction of metals during hot/cold periods to prevent engine seizes. Combustion can cause piston to flare for proper compression.
- \* Blood filter idea for Aethlon to use eddy currents to remove aluminum from blood.
- \* Sunbrellas UV Shield - from a CA woman that walk with umbrella during a sunny summer day
- \* Electromagnetic car bumpers - auto-dampening circuit to press and pull during collision - bumpers are plastic or fiberglass now so this won't work.
- \* Car alarm systems – Fuel shut-off valve – ignition fuse switch – mp3/ring-tone alarms sounds
- \* Fill tires/ yoga balls with helium better gas mileage/ cool toy to try to walk on water.
- \* Large Copper plumbing electromagnet with copper bb's propelled in the opposing direction as the flow of electricity uses graphite as a lubricant.
- \* BubbleBomb - partially filled soapy water balloon with fishnet "glove" shake and pop maybe air bubble with soapy pantyhose might work.
- \* Experimental lung bacteria that produces peroxide. (symbiotic)
- \* Freeze curing concrete in gelatin tomb experiment for concrete canoe salt plus soapy-water plus porous lava rock? Concrete foam made with soapywater and freeze dried.

released to public by [Autumn Leon \(Punkroku\)](#)

on Sunday, September 16th, 2k12 at 6:42pm via [openInvent](#)

- \* Gel Hydro – Gelatin Hydroponics for growing plants. The gel would allow for experimentation into root affinities because we could inject, CO2 /mud bubbles, crystals, or negative ion generators. When we need to flush the system raise the temperature and the gel becomes liquid and could be pumped. Experiment with electro-agriculture and view the root development.
- \* Does hot helium rise faster than cold helium?

## MUSIC RELATED:

- \* Eclipse sound shield - adjustable sound hole cover on guitar -used to change tone/acoustics
- \* ACappello Comber Pickups - pickup design uses 1 wire bent into a comb shape.
- \* Kickstand Guitar Bracket -chassis for guitar that improves look of guitar 3 spikes can house effects or wireless FM transmitter. (wrote [zzounds.com](#) with idea)
- \* Guitar Bracket - for free spinning ZZ Top guitar movement attaches to a suspension rig neck chains to the -neck collar guitar choker necklace below
- \*Guitar choker - strap support attaches to center of throat facilitates switch guitar and has 8 nickle beads 4 on left and 4 on right for binary finger input. Piezo pickup mounted on the throat send to low pass EQ which bumps low frequencies for vocal effects.
- \*Chimera hybrid bass/electric guitar bass strings in center strum center out.
- \* Fuzz static spike - nickel spike wired into guitar for low-fi static sounds -Strange side effect: when touched produced AM Radio sound when connect to amplifier.
- \* Mercury Pickups - Nickel capsules filled with mercury and adjustable electromagnet to change the voltage/volume of the active pickup.
- \* Pium - 3D piano drum consists of concentric drum cylinders or hexagonal cylinders (6 divides 12 notes of western octave) hex part comes from Erhu design.
- \* Acoustic Electric Erhu - crude piezo pickup on my erhu.
- \* Microphone Killswitch design -handle guard switch like brakes on bike - slap back of hand for killswitch effect the cuts out the sounds and adds a pop which makes a cool distortion effect.
- \* Microphone thumb wheel to alter pitch manually -pitch bend
- \* Keyboard - selective scale muting - mutes notes not in desired scale
- \* Midi-Patch Flywheel -slide through list of patches on the fly -sound effect
- \* switch-SWITCH -(mirrors keyboard) - flips high to low progression from D key
- \* Keystrummer - 4-6-5-7 keys power motors one for each string on the guitar. Has voltage regulator/Potentiometer to control speed of motors (5v). Motors are "stair-stepped" on top of the bridge due to their width. Auto strum patterns - Programmable Arpeggios frees the strum hand for 2 handed fretting.
- \* Drum mutes - pads that can be pressed onto drums (inspired by the pillow in my old bass drum from the previous owner).
- \* Braces Midi Controller. Turn your retainer into a theremin with keys you can activate by sliding your tongue over.
- \* Acoustic Diaphragm/ Accordion bellows guitar a bag-pipe like bubble of air which can be used to alter the acoustics of the guitar. GhettoRig
- \* String Capo Beads - beads for guitar strings to alter the sound plus the beveled semi-sphere bead can be rotated to lift the string at the desired fret for capos.

[Punkroku](#) (last updated 03:01:53 PM Thu, September 20, 2012)

1011 1101 @#&!

# openInvent

An article on these public domain invention ideas

released to public by [Autumn Leon \(Punkroku\)](#)

on Sunday, September 16th, 2k12 at 6:42pm via [openInvent](#)

- \* Rainbow strings - like DR strings -hand-coated guitar strings but rainbow colored to help with positioning on fretless instruments.
- \* stringViber Pickup nut. Locks onto string over pickup to alter/enhance sound. Mercury Capsule?
- \* guitarGloves – gloves with pic -pockets for optional pics for strum hand also protects fingers of fret hand helps mute buzz, and can be saturated with brake fluid or string lube.
- \* Wyndgate Harmonica Spindle - Idea for harmonica trumpet need air compressor.
- \* 2 channel FM radio -takes 2 nearby transmitted FM channels and makes 1 radio signal with improved fidelity for drive in movie theatre?; obsolete?

## Legal Ideas/Algorithms:

- \* Executive Order 618541513 = FREEDOM - explicitly gives/ restores the citizen's rights to veto and pardon by petition or running vote (tally over time- like state ratifications).
- \* Build Constitutional Law using perjury laws - perjuriize oneself to force the court to make a ruling on the truth of a statement.
- \* Cross out unchecked boxes and insert a counter to prevent later manipulation of forms/docs with checkboxes.
- \* Dynamic Signature - contains elements which change with each signing. (ex. signature serial no.)
- \* New dating systems (inspired by Thelma Feister):
  - Planets of the week:
    - Sun (Sunday/Domingo) -1st day of the week
    - Moon (Lunes/Monday)
    - Mars (Martes/Tuesday)
    - Mercury (Meircoles/Wednesday)
    - Jupiter (Jueves/Thursday)
    - Venus (Viernes/Friday)
    - Saturn (Saturday/Sabbado)- 7th day/sabbath (Question: Is Saturn a refection? -Mirrors in space?)
  - P.E.A.R.L. dating - Ex. yesterday was Saturn.Sept.15th.2k12
  - Neo-Roman dating 9-15-2k12 = i · o · mmxii
- \* 1(800) NUM-SAVE(proposed) or a 4 digit number like NUMS. Phonebook phone system- store your virtual phonebook. While in jail I couldn't access my phonebook.
- \* Proposal for standardized law numbering federal state ratified variants.
- \* Quality Assurance Testing of law - new career field
- \* Proposal for standardized domain-suffix symbols -[http://groupspaces.com/openInvent/forum/?bview=thread&thread\\_id=37924](http://groupspaces.com/openInvent/forum/?bview=thread&thread_id=37924) – must be a member [join](#).

## Writing/Story Ideas

- \* Semi-Questionmacolon ; - ?; combined as one character used in a series of rhetorical questions.
- \* Simultaneous Text: Text written in the same space Text written in the (often with different colors) same horizontal space. For now this is done by using graphics used in books to represent to people speaking at the same time. (Partial Publishing)
- \* Wally the Wind Whale - children's storybook/character

# openInvent

An article on these public domain invention ideas

released to public by [Autumn Leon \(Punkroku\)](#)

on Sunday, September 16th, 2k12 at 6:42pm via [openInvent](#)

- \* Pillowbooks - A book with quilt stories and as thick as a pillow -Cloth Pages perhaps with circuitry (graphite+DAP conductive silicone src:Instructables)
- \* Encinma - a book similar to a comic which allows the user to telephoner into dreams.
- \* High School Parking Lot / Drive-In Movie theatre -re-purpose empty H.S. lot for community/student films
- \* Nightowl Development Project - a housing community designed for nocturnal people with a nearby complimentary commercial sector.
- \* Ash Valley - a place from a dream where volcanoes ash collected.
- \* CarModz - animated film skit dialogs Character: Prototype, Inventor Jim (Jimmy Rig)
- \* Chipper up - animated film skit dialogs Character: Chip, Blue, Sand-WichDoctor
- \* Albo for president - story where people elect a robot with foreign parts as president.
- \* John's Pad - inspired by John Cappello's ideas and Joe's Apartment. Characters: Flick and Flea.
- \* Quest for the crystal skulls - apostles heads. Philosophers Stone. Vinegar bones (rubber bone therapy) Temper your body. Rib=Gene - "In god we trust" star of David anagram.
- \* Trilogy - 1.Prisoners on moon resort to cannibalism as food shipments slow to a stop. Rebels break free to return to war ravaged world. 2. prequel 3. the aftermath.
- \* The Following /Transference = horror scripts about hauntings goes into German experimentation - distilling spirits- ESP. Communicating with the dead. Spirit Possessed Computers. Web-mind. Chemical X. OBE's Astral Projection. (inspiration: flat-liners?)
- \* INJUSTICE IN JUSTICE: Case SCD223160
- \* WHAT I LEARNED IN JAIL. Short introduction most of the pages are blank to be used as a journal.
- \* The dragon and the butterfly by Toolich Herbaugtie (pen name) - a romance novel
- \* Troh, Jann, and Ghizz - cartoon characters (toadlyfly.com \*RIP)
- \* Paralegal Para-BULL - law niche comic

## Trademark Ideas/Band/Album Names:

- \* [Baconweavers](#) -restaurant franchise domain owned by Heinz (bvi) - menu logo design
- \* Soupwich Salad - simple franchise name
- \* Amen Ramen - "green" solar-power water heater cart that sells hot water and cups, soup & free condomints ;)For you to make your own soup.
- \* Tea-Ki Hall Tea-cohol - healthy tea spiked!
- \* Grandma's Bananas - Nona's Nanas - Crazy grandma logo for banana chip with peanut butter marshmallow and chocolate candy.
- \* Bakeinis Chips -logo for bikini-shaped chips
- \* PuzzlePops - popsicles the can stick together.
- \* Strip T's \* Novel T's \* Flurt-Tee's - Bar/club
- \* Pay Rayz
- \* Sunbrellas
- \* Salten C Flats
- \* Gargantula
- \* SpyderFist -Spider Fly
- \* Soundmage
- \* Lets Bone - t shirt design

released to public by [Autumn Leon \(Punkroku\)](#)

on Sunday, September 16th, 2k12 at 6:42pm via [openInvent](#)

- \* COCKS - t shirt design modified cops logo "whatcha gonna do when they cum for you"
- \* Tranhk Symbol - Trans Anhk
- \* Sand-wichDoctor (Sand Witch-Doctor) -character from chipper up!

# COCKS

Whatcha gonna do when they cum for you...

- \* StaR-RatS Palindrome logo
- \* Kats logo - kats written like a cat
- \* Diaphragm windscreen - oxymoron
- \* pLasTiK HaBiTaT
- \* SCX -Simplicity CompleX/ Stupide Syndrom

- \* Zen Anti-City
- \* ToadlyFly (RIP -clothing company)
- \* Bitsfit Entertainment XD! See logo below or visit [www.bitsfit.com](http://www.bitsfit.com)
- \* SlickSloth (9-29-2k10 hello-kitty ripoff mailed to SD Union Tribune while I was in jail. I also mailed a 1 of a kind hand drawn resume and Paralegal Para-BULL (Parable))

### Alcohol-Related Inventions/ Recipes:

- \* BottleCap Twist & Mix - 2 versions: (1) to house powdered mix (pop-rocks/fizz calcium carbonate+citric acid) (2)Twist cap separates two liquid bottles in hour glass shape. Sold in paper package to make it Rectangular. Directions Twist and press together like child safety pill caps Snap/Cut Cap (pull safety Ring) in half to serve (serves 2).
- \* Graveyard Absynthe - created in 2007 when absinthe was legalized in CA emailed to attorney. has line of coffin encased bottles purple absythe. Skull stamp spoons for Skull Sugar cubes (day of the dead). Song and Jingle created. Woman bust glass bottle from alibaba.com.
- \* Fruits of Eden - design for alcohol brand
- \* Russian Firewater - logo design for Russian import vodka line.
- \* Iceman - Alcoholic Drink made with gummy bears frozen in ice cubes and Permafrost Edible Wax Ice Pick Garnish
- \* Flint-Stoner - Alcoholic Drink made with Flintstones vitamins and ice and served with a rock candy garnish.
- \* Insurance - An Alcoholic Drink made with Ensure and Kahlua goes with the Irish Car Bomb.
- \* Cozy Fireplace Abuelitas hot chocolate spiked with Kahlua and hot sauce topped with cinnamon/cream.

### Slogans:

- \* Assacka! - Binaca for your ass!
- \* Tampax Pearl: Pearl for your clam, TAMPAX!
- \* Fermental Patience (For Mental Patients)
- \* LiquorAssassin (lick her ass ass 'n')
- \* RubbErButtErFlysUndone (Rub her butt her fly's undone)
- \* Condom-mints - for your condom breath... ;d

### Fictional Names:

- \* Audrey and Even (i want to name my kids these names)
- \* Alon Void (someone should change their name to this alon can look like void upside down)

Bitsfit © (.com)

An article on these public domain invention ideas

released to public by [Autumn Leon \(Punkroku\)](#)

on Sunday, September 16th, 2k12 at 6:42pm via [openInvent](#)

- \* Werther Islov
- \* Wilby Alwright
- \* Al Beether-Fosher
- \* Howitt Ottaby
- \* Almas Fulavale
- \* Imda Bawz
- \* Ida Kline
- \* Borden Waiten
- \* Wakeem Oftumuch
- \* Toolic Herbaughtie
- \* Sheila Vitts

## Software Ideas/Game Designs:

\* GraffitiBlog - an array blog mapped to dynamic image map with each post limited to 3 rotated edit posts (1st current tag. 2nd last post crossed out. 3rd post tagger history. Poster limits per day and time delays between posts. Email/Twitter Posting. Perhaps integrate facebook and friend-space(webpage that joins facebook friends walls- to graffiti blog on.

\* DiceIV newspaper game with a 4 dice cube flattened to 2d space. Hints sum horizontal/vertical lines. Opposite sides of dice always equal 7. Object: Put numbers on all dice. Game Idea: mailed to Southwestern Sun.

\* DiceIV DiceIX 2X2 and 3X3 rubix (IX = 9) cubes with rotating dice faces. can be used in games dynamic die.

\* Phonemena - scrabble game using phonemes (pronunciation) good for learning languages.

\* CustomCasinoLand - players select there own photos for customizable slot machines (locking wheels etc) can be pornographic adult game

\* MagnetBall Racer - flip polarity to jump -3D breakout battle capsule mode. + Races.

\* DND Pinball level up with XP collisions cause battle encounters later level players build the game world giant pinball world

DS games:

\* TicTactics - [intentionally blank]

\* Santa's SnowracerDS - Scarecrow character auto pilots through the race while the player draws the race map on the fly using the DS touchpad. Other characters: Santa drops Frosty's Hat.

Grinch drops coal. Snowman snow clones helps auto pilot thru scarecrows level. Scarecrow drops scarecrows which slow players. The drops are balanced like rock paper scissors. Ex Frosty's hat helps snowman but hurts Grinch, coal hurts snowman (melts) but helps Santa (turns into diamond).

\* ElfGrinch - NeighborsFromHell clone elf has to sabotage Santa's workshop for Grinch.

\* Optical Illusion demo - optical illusion texture maps and puzzles.

\* Simple virus - malicious - program name equals command. spawn then kill. exploit capital "i" and lowercase "L" for binary opcodes ex. 0011 = IIII = LLii Exploits: Arial font bug/feature?

\* 3D texture encryption - viewpoint equals the key text texture mapped onto object as colors.

Object primitive (cube/teapot/torus etc) is combined with viewpoint as encryption key.

\* Addition/Subtraction encryption ex. adds: be=g it=c(29) subs: we = r yes=a false encryption "decozion" decodes to intelligible false codes.

\* Vowel Rotation - naf seod = nuf said

[Punkroku](#) (last updated 03:01:53 PM Thu, September 20, 2012)

# openInvent

An article on these public domain invention ideas

released to public by [Autumn Leon \(Punkroku\)](#)

on Sunday, September 16th, 2k12 at 6:42pm via [openInvent](#)

- \* Anamorphic Art + blur eyes to read.
- \* Lenticular Inversion Artwork - art painted inside PVC cylinders cut in half along the diameter and arranged in a horizontal array in a manner so that Animation can be simulated using the views lateral motion.
- \* Cinegin proposed Wintermute Engine mod to allow image sequences or videos to be used as point and click adventure game backgrounds using the characters movement to cue video playback. Needs built-in image tracking to create dynamic collision map image sequences.
- \* Thornwood Creek - plot for a short game where a human becomes a zombie but doesn't know/realize it until the end of the game. Abandoned Hammer HL2 mod- \*spoiled
- \* VR roller coasters - harvest coaster g-forces and use a GPS transponder to recreate the roller coasters path as a spline in 3-Dimensional space need velocities to move a camera along the spline. use pre-rendered background environments and video panning from head motion tracking (2/3 infrared LEDs +infrared camera pan inspired by Shadow of the Colossus- ps2 game)
- \* AR Games Robotron classics graphics updating using AR. For Game skins.
- \* OrmaLuigi DS RPG - Idea for a monster/boss in a Mario and Luigi series RPG. Ormaluigi is a golden statue which is a world of himself, he is trying to devour/combine the two worlds Mario land and earth. As a result all the characters are hybrids stuck together with multiple personalities like Koopaowser,moomba-turtles,FlyingHammerBros, DinoPeach, Toad-humans. Mario power up raccoon-frog. and stone statue. Gameplay: Mario and Luigi are stuck together. so, so is their movements. The d-pad and the ABXY buttons control the player through changing control configurations - L and R are jump/action buttons that help the player figure out whose in control and how. The controls are rotated to confuse the player ex. sometimes right/A =up left/Y= down, down/B=right, up/X=left for Mario/Luigi or vice versa. The controls are a mind-blower which will confuse you at times - how do the characters feel? Play the game to find out. (Tame monsters for followers. Time Dependent Levels key/secret events at certain times. - a bit of Chrono trigger, dragon warrior, and reverse mitosis).
- \*Swipe your ID to sign digital petitions... (need gov't approval/support)

(Bitsfit Entertainment - <http://www.bitsfit.com/>)

- \* tripleClickr - idea to get Morse code input from mouse for macros.
- \* ZeVeRoH -newspaper type game adds to ZERO, VERTically, and HORIZontally
- \* BlurVisors - pull back skin at corner of the eye to temple blur effect for gaming
- \* YOXI - game hybrid of rock,paper,scissors, dots and connect four
- \* Etherial card game - 3 layer pyramid game-board similar to FF8's built in card game.
- \* Virtual LivingRoom - 2 public classes Smash&Dash(quick-death), or Hack&Slash(durable) = Pay Per Click MMO entertainment. 2 employee class GMs:(moderators) Comvids:(most convicts paid to play thru joint venture project -cant chat have to run from other players but they have the power to spawn ad armies) Katarmari like commercial run, collect brands, ads, and logos. PVP -Advertising AOE Force nearby players to watch your selected viral videos or ads make your own playlist or import youtube lists. Manage players using colors on 2D plane color represents player id on terrain-assumes no 2 players in same space collision = timeout watch video. Monster Classes Medusa monster Odyssey multi-headed snake with TV screens. TeleBears, Telapillars, sound Sprites (faeries), telelakes, quicksand teleports. Input your own TV tuner input or radio to help create the players proximity environment. Semi-Dynamic environments especially PVP input media (radio/TV) hashes to terrain seeds which are recycled.

[Punkroku](#) (last updated 03:01:53 PM Thu, September 20, 2012)

# openInvent

An article on these public domain invention ideas

released to public by [Autumn Leon \(Punkroku\)](#)

on Sunday, September 16th, 2k12 at 6:42pm via [openInvent](#)

\* BinaryMorseCode - computing uses a primary and secondary clock. Uses a "blink registry" Large Cache. In essence we can store a hexadecimal number in 4 clock cycles. Changing the secondary clock would allow us to change between different base systems. We can use transistors to store Morse coded bit codes known as "morsels". The registry then becomes a bunch of flags each representing a morsel sequence. Morsals or Morsels go along with the current theme of bits nibbles and bytes. See the article on [bisfit.com](#)

\* PuzzleQuest crossword - maze hybrid/variant

\* VirtualVendor -3D web browser Texture mapped stores/webpages fused with 3D graphics and an MMO experience. Instead of a standard web browsing by typing in web addresses or image maps we a presented with a world of objects or webpages to browse like houses on a street - each have a favicon-type logo and turn into web pages. -Easter Egg Game Crazy Leviathan players control snakes that eat all the 3D objects(which link to web pages).
