

---

<b>1. Making the leaders bold is possible but ugly</b>	<b>1</b>
2. The second entry is in the regular font and at normal size, but the leaders are designed to align vertically nonetheless	11
14. We can also have verbose entries that extend over several lines of text, demonstrating that long section names in the table of contents are not a problem at all and can be dealt with adequately using a suitable set of macros	222
